

FOR IMMEDIATE RELEASE

## **Alpha Technologies Introduces Unique, Advanced Modular Power System**

**Vancouver, BC & Denver, CO. October 26, 2009** – World leading power solutions provider Alpha Technologies Ltd. is pleased to introduce the Alpha Modular Power System 80HP (AMPS80); a revolutionary AC or hybrid AC/DC power supply for ensuring system continuity. The unique design of the AMPS80 offers Telecom grade reliability, up to 94% power efficiency and high power density through a scalable, modular platform with an intelligent system controller.

“Once again Alpha is leading the way with cutting-edge technology to provide reliable and advanced powering solutions.” said David Boroevich, Vice President of Marketing at Alpha. “AMPS80 is an innovative solution for resolving even the most complex power problems.”

AMPS80 is offered in 3-phase, 2-phase and single-phase configurations to power up to 75kVA loads utilizing 2.5kVA inverter modules. Optional 1.8kW rectifier modules may also be added on the same rack to create a hybrid AC/DC power system.

Alpha’s smart unified controller with integrated Ethernet/SNMP interface monitors and manages both the inverter and rectifier modules through a web based GUI and local LCD touch screen. The controller also features Email notification via TCP/IP, user definable alarms & data logging, flexible battery management features, and smart peripheral monitoring features.

“AMPS80 offers a highly reliable and energy efficient power system that allows operators to reduce their total cost of ownership,” says Edna Menon, Senior Product Manager for the Alpha Modular Power System.

To see the Alpha Modular Power System visit Alpha (booth #10084) at the SCTE CableTec Expo 2009, October 28-30, Denver, CO

For information about the Alpha Modular Power System, visit [www.amps80.com](http://www.amps80.com) or call Alpha: 800-667-8743 (toll-free), 604-430-1476 (direct) and ask for the Application Engineering team.

### **Availability**

Limited quantities are currently available. Contact Alpha for details.

### **About Alpha**

Alpha Technologies Ltd., a member of The Alpha Group, is the leading manufacturer of outdoor and indoor Uninterruptible Power Supply (UPS) and Backup Power solutions to the Cable Television, Telecom/DataComm, Traffic, Security and Medical markets. Alpha is known for its high-quality, feature-rich systems that are engineered to meet industry requirements and withstand harsh environments.

The Alpha Group is the global leader in outdoor power conversion technology and represents a global alliance of companies that share a common philosophy – create world-class powering solutions for communication, commercial, industrial and renewable energy markets. The Alpha Group has over thirty years of outdoor power expertise with over two million systems in operation around the world.
